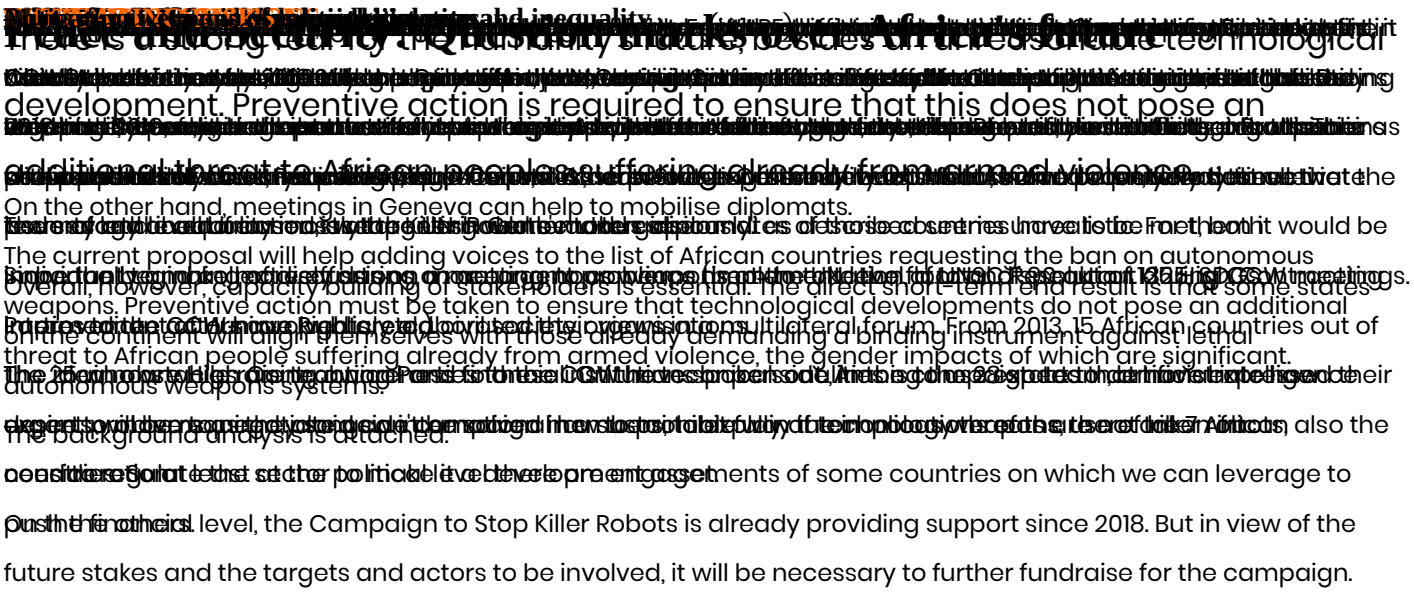
TOGETHER FIRST

A global system that works for all

Is it a multiple?	**Dystrophic Frame:**	**Is organisation?**
Yes	Mitigate	Yes
Weapons of Mass Destruction	**Conflict and inequality**	**Short**
Global catastrophic risks mitigated	**Risk multipliers managed**	**Implementation timeframe**

[illegible]



[illegible] technological development. Preventive action is required to ensure that this does not pose an additional threat to African peoples suffering already from armed violence. [illegible] the On the other hand, meetings in Geneva can help to mobilise diplomats. [illegible] it would be The current proposal will help adding voices to the list of African countries requesting the ban on autonomous [illegible] Overall, however, capacity building of stakeholders is essential. The direct short-term end result is that some states weapons. Preventive action must be taken to ensure that technological developments do not pose an additional [illegible] on the continent will align themselves with those already demanding a binding instrument against lethal threat to African people suffering already from armed violence, the gender impacts of which are significant. [illegible] autonomous weapons systems. [illegible] also the The background analysis is attached. [illegible] of some countries on which we can leverage to [illegible] level, the Campaign to Stop Killer Robots is already providing support since 2018. But in view of the future stakes and the targets and actors to be involved, it will be necessary to further fundraise for the campaign.
